TEAM INITIALS:			

No Equipment Constraint: When this symbol appears in the top-right corner of a mission, the following rule applies: "A mission model cannot earn points if it is touching equipment at the end of the match."

This rule applies only to the specific mission in which the constraint appears. If the same mission model is used in another mission where the constraint does not apply, it can earn points as usual. Each mission model is evaluated separately within its respective mission.

EQUIPMENT INSPECTION

(Prematch) The robot and all equipment fit completely in one launch area and under the height limit: **No** **Yes**

PRECISION TOKENS

Number of precision tokens remaining: **0 1 2 3 4 5 6**

MISSION 01 DRONE SURVEY

The drone is no longer touching the mat: **No** **Yes**

Bonus: and the LiDAR map is completely flipped over, with the scan marker at least partly in the survey area: **No** **Yes**

MISSION 02 EXPLODING SEEDS

Number of seeds no longer touching the stalk: **0 1 2 3**

MISSION 03 FLIP THE ROCK

The research flag is down: **No** **Yes**

Bonus: and the rock has been returned to its original starting position: **No** **Yes**

MISSION 04 LUCKY LEAVES

Number of leaves no longer touching the nest: **0 1 2**

The katydid is completely in the leaf habitat: **No** **Yes**

Bonus: and the katydid remained in its original position throughout the match: **No** **Yes**

MISSION 05 REACHING ROOTS

The plant root is extended: **No** **Partially** **Completely**

MISSION 06 LEAFCUTTER FRENZY

The ant is touching the nest: **No** **Yes**

Number of leaf fragments contained within the nest: **0 1 2 3 4**

MISSION 07 HUMONGOUS FUNGUS

The mycelium is completely extended: **No** **Yes**

Bonus: Number of connections formed between one team's extended mycelium and the opposing team's fully extended plant root: **0 1 2**

MISSION 08 TANGLED

The vine is touching the mat: **No** **Yes**

MISSION 09 RESEARCH PLATFORM

The research platform is raised: **No** **Yes**

The camera trap is deployed: **No** **Yes**

The seed is no longer touching the tree: **No** **Yes**

MISSION 10 FRAGILE MICROHABITATS

The spider habitat is in its original starting position: **No** **Yes**

The snail habitat is in its original starting position: **No** **Yes**

MISSION 11 WINDOW TO THE PAST

The root cover is down, touching the mat: **No** **Yes**

MISSION 12 FOREST ELDER

The cane is completely raised, touching the tree: **No** **Yes**

The support tie is around the post: **No** **Yes**

MISSION 13 KEYSTONE SPECIES

Your keystone species is on the restoration platform, and the young trees are raised: **No** **Yes**

MISSION 14 SEEDS OF RENEWAL

Number of seeds contained within the replantation station: **0 1 2 3 4**

Bonus: and touching the mat: **0 1 2 3 4**

MISSION 15 BIOCENTRIC ARCHITECTURE

The nesting canopy is raised: **No** **Yes**

The garden skylight is completely in: **No** **Yes**

The compost hatch is completely opened, touching the mat: **No** **Yes**

Dock location: **Mine** **City** **Farm**
