

DISCOVER

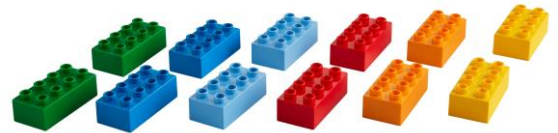

Family Engagement Activity – Session 3

- Create your own museum exhibit!
- Have you ever visited a museum together as a family? What did you see there? If not, what kind of museum would you like to visit?
- Decide together what you would like to see in a museum. Use your Six Bricks or other materials to work together and build your exhibit. Can you think of a way to make it interactive?
- On your Activity Log, write down what you built for your exhibit.

During this activity, your family might say or think...

I haven't tried it this way yet!
