Family Engagement Activity – Session 4

- Work together to perform a play that tells a story!
- Choose one family member to start. They will begin telling a story they make up. You can use your Six Bricks or other materials to act out the story or to create a stage. After a minute or two, the storyteller chooses who goes next. The next person continues the story. Continue until everyone has at least one turn as the storyteller. Make sure there is an ending to your story. Ask: What was fun about telling a story together? How could we change the story next time?
- On your Activity Log, write down what your story was about and the silliest part of it.
