## Family Engagement Activity – Session 5

- Think about art in new ways!
- Think fast and be creative for this activity! Begin with everyone thinking to themselves of a place that's boring or not creative. Now, think of a way to add art in an innovative way. When you have your idea, build something with your Six Bricks or other materials to explain your idea. See who finishes first! Share what place you chose, why you think it could be more creative, and what you built to improve it.
- On your Activity Log, write down your creative solution.

During this activity, your family might say or think...

*I can use what I know!*
