## Family Engagement Activity – Session 6

- Test your communication skills! Students completed the Back-to-Back activity during Session 6 of *FIRST LEGO League Discover*. Now, try it out as a family!
- Sit or stand in pairs. Each person has a set of Six Bricks. One person builds a model, then explains to their partner how to build the same model. The partner builds without looking or asking questions. Compare your models. How close did you get? Swap roles and repeat until everyone gets a turn. What was easy or hard about this activity?
- On your Activity Log, write down how close you were to building the same model.

During this activity, your family might say or think...

**I will keep trying until I do it!**
