Family Engagement Activity – Session 8

- Families require teamwork! Combine your ideas to come up with something new for the future.
- Where do you think we will be creative in the future? Separately, each person thinks of an activity, type of art, or place for future creativity. Use your Six Bricks or other materials to show your activity or place. Share what you chose, then combine your ideas all together. For example, maybe you'll be dancing as you paint on the moon. See if you can combine your models too!
- On your Activity Log, write down your combined ideas.

During this activity, your family might say or think...

I'm much better at this now!
